REF: REPORT ON THE VISIT TO STRATHMORE UNIVERSITY.

It is with great pleasure that I write to inform you about my experience during the trip to Strathmore University. It was an experience of a lifetime and indeed an eye-opening experience. This is because I had never visited before; not even a college. Before then, I thought that good universities were only found in the States. Today - I have known that Kenya has institutions with good facilities.

Out of the session with Mr. Titus Onua, I got to know that discipline leads to success. Discipline is divided into four main virtues, hope, hardwork, determination and self confidence. If you don't have confidence, no one will be able to know your talent or ability. For you to be able to gain self confidence, you should participate in activities such as sports, choir, music and drama festivals.

Even when being hopeful, one should also be patient in whatever you hope for. We should never lose hope. Working hard means exceeding beyond your expectations. The next session was with Babu Michael. The session

For you to make an impact, your character must come out. Just like a pencil, one must be sharpened for the inner part to come out. When you make a mistake using a pencil, you have the freedom to erase and correct your mistake. In the same way, one can correct the mistakes he or she has made in life.

It was such a wonderful day and I am really happy about it. All thanks to the board members for organizing this visit, the Strathmore university for inviting us and accepting us in their institution and God for giving us a safe journey to and from the venue. May God bless you all.

Yours faithfully,

~~✍~~
Eunice Nanjiku.
